

## GARMENT CARE GUIDE

practical tips and tricks

Thank you for choosing us to produce your custom garment order. Please take a moment to read through this care information sheet.

### Washing

Wash inside out to prevent excessive rubbing.  
Avoid fabric softeners to prevent cracking.

### Water

Use cold water to keep colours vibrant.

### Drying

Use low heat in the dryer or air dry to prevent heat damage.

### Ironing

Iron with gentle pressure turning the garment inside out or using a pressing cloth to preserve print longevity.

Use appropriate temperatures:

- Cotton - medium heat;
- Synthetics & blends - low heat.

### Other Tips

Do not dry clean to prevent harsh chemicals reacting with the print. Avoid excessive friction on the print.
